

Counselling Services at UFV

The Counsellors at UFV can help you with...

Career Planning

Help! I'm undecided about my career.

Most students come to university as a step towards a satisfying career, yet many are not sure what that career might be. Counsellors offer career counselling to help you explore your skills and interests, help you research educational programs and occupational areas that suit you, and help you decide how to choose a career goal.

Success Skills

*I want to study more effectively,
not just harder!*

If you are having trouble with your courses, or if you are "doing OK" but want to do better, then effective motivation skills, personal management strategies and study skills can help. Do you want to improve your memory, your note taking, your reading or other skills? Counsellors can work with you individually and in workshops to improve your effectiveness in studying and achieving success.

Personal Counselling

*Ugh...! I do NOT need these
problems right now! How do I cope?*

Coming to university is sometimes a big change, and when you have changes in your life, personal problems may appear, too. If you are having difficulties, Counsellors are here to help at no charge. The UFV Counsellors are trained professionals who can help you explore your options without telling you what to do. All our counselling is confidential within the limits of law. Just contact Student Services - you don't need to tell the folks at the front desk any details when you book a personal counselling appointment.

Emergencies happen. If you have an emergency, the Counsellors at UFV will see you as quickly as possible.

The UFV Counsellors are in Student Services:

On the Abbotsford Campus: Room B-214, phone 604 854 4528

On the Chilliwack Campus: Room A-1318, phone 604 795 2808
