

Homewood Video Counselling Services

Expert counselling
that fits with your life.

Homewood Health's video counselling services are simple to use and make it easy to access the care you need, when you need it, to keep progressing toward your goals.

Get the help you need when you want it.

Video counselling appointments are easy to arrange. Our flexible scheduling options mean that you can schedule counselling sessions that work with your life. You can conveniently book appointments with one of our expert clinicians from the comfort of your own home.

Private counselling in a secure online environment.

Homewood video counselling services are offered using a secure technology service to deliver encrypted virtual care through private video visits, secure messaging, and other virtual care tools. Personal devices can be used (desktop, iOS, and android devices) to access virtual care.
