

Expert medical advice when you need it most through an **Expert Medical Opinion.**

Our leading medical experts can help you make confident medical decisions if you have questions about a diagnosis, treatment option, or the need for surgery.

Our medical experts review and advise on conditions like:

- Heart issues, heart attacks, and strokes
- Knee, joint, and back pain
- Different types of cancer and tumors
- Digestive and stomach issues
- And any health condition causing concern

Get a personalized report from a medical expert who specializes in your condition for advice and answers

Receive advice from the comfort of your own home, provided at no cost

Help eligible dependents get the clarity and advice they deserve too

How Expert Medical Opinion works:

Give us a call and a clinician will listen to your concerns, gather your medical history, and find the right expert for you. Once the expert reviews your diagnosis and treatment plan, we'll send you the expert's opinion in a report with recommendations for your best health path forward.*

*Teladoc Medical Experts does not make referrals or appointments for members or arrange or cover the cost of travel or lodging.
