

Student Preview Mode

To see your course as a student sees it you need to enter Student Preview Mode. When doing this you will create files and be prompted whether to save those for future.

**Make sure edit mode is on
(Top right of screen)
Click to toggle.**

Edit Mode is ON 		Edit Mode is Off 
---	--	--

1. In the top right you have a green circle with arrows above and below looking like an eye.

2. When the student preview is on there will be an orange bar at the top that says Settings or Exit Preview

3. When exiting Student Preview you can choose to keep the preview user data or delete the user data.

Exit Student Preview

You are leaving student preview. Using student preview created a preview user in your course with all of your activity as that user. This user and the related data may impact the course experience for you and your students. What would you like to do?

- Delete the preview user and all data (Recommended)
If you are finished previewing the course as a student, delete the data and remove the preview user from your course.
- Keep the preview user and all data
If you are temporarily leaving the student preview to complete your task in your real account, keep the preview user and data. You can delete the user and data by returning to student preview and changing these settings.
- Remember this choice and do not ask me again
This can be changed in Student Preview Settings, located in the Student Preview control bar.
