Academic Planning and Priorities Committee

Wednesday, May 17, 2023 - 2:30 PM
Abbotsford Campus, Room A225

Page

1. CALL TO ORDER and TERRITORIAL ACKNOWLEDGEMENT

2. APPROVALS

2.1. Agenda

MOTION: That APPC approve the agenda as presented.

3 - 7

2.2. Minutes

MOTION: That APPC approve the minutes of April 19, 2023 as presented.

3. BUSINESS ITEMS

8 - 10

3.1. Restructuring of School of Land Use and Environmental Change

MOTION: THAT APPC approve and recommend to Senate the restructuring of the School of Land Use and Environmental Change into two new departments.

11 - 32

3.2. Strategic Enrolment Management (SEM) Operation Plan

33 - 43

3.3. Strategic Enrolment Management (SEM) 2030-31 Targets

4. PROVOST'S REPORT

5. INFORMATION ITEMS

5.1. E-vote: APPC Terms of Reference

An electronic vote was conducted from April 25-28, 2023 due to the timing urgency of requiring Senate approval and because substantive discussion has already occurred, the APPC Chair and Vice-Chair have determined that the following electronic vote was necessary before the next meeting.

MOTION: That the Academic Planning and Priorities Committee approve and recommend to the Senate Governance Committee for approval the amalgamated APPC/SBC Terms of Reference as presented.

Quorum was achieved with 14 votes received and motion was carried.

5.2. Senate Items - April 14, 2023

- Program Suspension - English Language Studies

Page

- Program Suspension – Migration and Citizenship Graduate certificate and diploma
- Program Suspension – Bachelor of Integrated Studies, Applied Management Concentration

5.3. Senate Items – May 5, 2023

- New School of Communication
- 2023 Program Report and Plan
- APPC Annual Report
- Program Discontinuance - Associate of Arts, Theatre option
- Program Discontinuance - Hospitality Event Planning certificate
- Program Discontinuance - Bachelor of Science in Nursing Three-year Fast Track option

6. ADJOURNMENT and NEXT MEETING

Next Meeting: June 21, 2023; 2:30-4:30pm; A225

Draft Minutes
Academic Planning and Priorities Committee

Wednesday, April 19, 2023 - 2:30 PM
Abbotsford Campus, Room A225

Present : Tracy Ryder Glass (Chair), Al Wiseman, Awneet Siva, Betty Poettcker, Camille Callison, Claire Carolan, Dale McCartney, David Johnston, David McGuire, Derek Ward-Hall, Garry Fehr, Gerry Palmer, Lin Long, Nathan Bialas, Nicola Mooney, Pedro Montoya-Pelaez, Peter Geller, Rupinder Sandhu, Shelley Stefan Sundeep Hans, Sylvie Murray, Tracy Ryder Glass, Vandy Britton, Vlad Dvoracek, Melinda Saretzky (Recorder)

Guests: Alastair Hodges, Lucy Lee, Heather Davis-Fisch

Regrets: Aiden Haagensen, Alisa Webb, Claire Carolan, Deanna Devitt, Karn Dhillon, Lin Long, Nathan Bialas, Rupinder Sandhu, Shelley Canning, Sundeep Hans

1. CALL TO ORDER and TERRITORIAL ACKNOWLEDGEMENT

Quorum confirmed and territorial acknowledgement given.

2. APPROVALS

2.1. Agenda

MOTION: That APPC approve the agenda as presented.
P. Montoya-Pelaez /2nd G. Palmer.
Carried.

2.2. Minutes

MOTION: That APPC approve the minutes of January 25, 2023 as presented.
D. McCartney/2nd S. Murray
Carried.

3. PROVOST'S REPORT

- An update will be given regarding the SBC/APPC amalgamation later in the meeting
- Convocation dates have been confirmed, June 13, 14, 15 and

- ceremonies are announced as well
- Due to convocation conflict, the APPC meeting is moved from June 14 to June 21

4. BUSINESS ITEMS

4.1. Program Discontinuance - Bachelor of Science in Nursing Three-year Fast Track option

Overview of the proposal was given, directing members to the chart on page 12 that gives additional context. This discontinuance is beneficial because it allows for a net growth in the overall nursing program because of changes being made to the LPN access program. These changes align with the Ministry's call for proposals to increase seats. The proposal mentions that because it is moving to accommodate two intakes of 40 students each, clinical placements and sessional requirements will be consistent across the BSN Program, an advantage given the challenge in staffing clinical placements.

The Senate Budget Committee confirms that budget implications will be managed within the Nursing program restructuring as reflected in the discontinuance proposal.

There are no students impacted because the program has been in suspension since June 2022.

MOTION: That APPC recommend to Senate the discontinuance of the Bachelor of Science in Nursing Three-year Fast Track option.

G. Palmer/2nd D. Johnston
Carried.

4.2. Program Discontinuance - Hospitality Event Planning certificate

MOTION: That APPC recommend to Senate the discontinuance of the Hospitality Event Planning certificate.

G. Palmer/2nd D. Johnston
Carried.

4.3. Program Discontinuance - Associate of Arts, Theatre option

The proposal notes that enrollments have been very low, and since 2016, only 2 of the 9 enrolled students registered for the courses.

The Senate Budget Committee confirms that there are no budgetary implications.

There are no students impacted because there are no students enrolled in the program.

Academic Planning and Priorities Committee
April 19, 2023

MOTION: That APPC recommend to Senate the discontinuance of the Associate of Arts, Theatre option.
S. Murray/2nd P. Montoya-Pelaez.
Carried.

4.4. New School of Communication

It was noted that Faculty Council approval was given on April 17, 2023

The New School of Communication is a transformation from the current Department of Communications, one of our largest departments within the College of Arts. The proposal notes that there is an increasing student demand, and this transformation will allow for broader curriculum offerings, interdisciplinary collaborations, and greater visibility with external partners. It was noted that the budgetary resources are already accounted for.

MOTION: THAT APPC recommend to Senate the formation of the School of Communication in the College of Arts to replace the Department of Communications.

S. Murray/2nd D. McCartney
Carried. 1 abstention.

Discussion was had regarding the definition of schools and departments and it was noted that UFV does not currently have a definition. There are definitions of department heads and directors in the collective agreement.

Action: Tracy: Bring discussion regarding the definition of schools and departments to Deans council.

4.5. Program Report and Plan

MOTION: That APPC recommend to Senate the approval of the 2023 Program Report and Plan to the Board of Governors, with the inclusion of the deadline extensions.

Gerry/2nd Vandy.
Carried.

A history of the Program Report and Plan was given noting that this is a way of seeking board approval for new program developments. It was noted that Senate has the academic responsibilities and reports to the board.

4.6. Terms of Reference review

A draft 2023 Terms of Reference (ToR) was attached that included items from the Senate Budget Committee (SBC) Terms of Reference.

Academic Planning and Priorities Committee
April 19, 2023

MOTION: That APPC recommend to Senate Governance Committee the draft Terms of Reference as presented.

S. Murray/ 2nd V. Britton

Carried.

Filling the seats of the positions will be reviewed after Senate approval.

The composition of both committees are very similar. Designates of standing committees are faculty, so the bulk of the committee are faculty members. Ex-officio members have increased.

Discussion was had regarding the designate option for some members. There are historical reasons for them and discussions to amend can take place next year.

Other changes and discussions regarding the purpose of other responsibilities can take place at a future meeting, such as the meaning of #9 and a possible committee name change that is inclusive to link to the use of space as related to programs and academic responsibilities.

Next steps: SBC will review the Draft ToR on April 20th, a final copy will go to APPC and SBC for a final vote. The ToR will then go to Senate Governance Committee, they will make a recommendation to Senate.

5. INFORMATION ITEMS

5.1. Program Suspension - English Language Studies

5.2. Program Suspension – Migration and Citizenship Graduate certificate and diploma

5.3. Program Suspension – Bachelor of Integrated Studies, Applied Management Concentration

5.4. APPC Annual Report to Senate

5.5. APPC Meeting Schedule 2023-24

5.6. APPC In-Camera Approval – January 17, 2023

- Program Reviews
 - Anthropology
 - Art History
 - Aviation
 - Communications
 - Theatre
 - Visual Arts

5.7. Board Items – February 2, 2023

- Concept Paper – Masters of Science (MSc) in Computing Science
- Program Discontinuance - Mennonite Studies certificate

Academic Planning and Priorities Committee
April 19, 2023

5.8. Senate Items – February 10, 2023

- New program – Bachelor of Regional and Community Planning
- Program Reviews
 - Anthropology
 - Art History
 - Aviation
 - Communications
 - Theatre
 - Visual Arts

6. ADJOURNMENT and NEXT MEETING

G. Palmer/2ND S. Murray

May 17, 2023; 2:30-4:30pm; A225

Memorandum

To: Dr. Tracy Ryder-Glass, Acting Provost and VP Academic, Chair of APPC
From: Lucy Lee, Dean, Faculty of Science
Date: May 9, 2023
Re: Motion to reconfigure SLUEC into two departments

Following extensive consultation for over 6 months, the School of Land Use and Environmental Change (11 permanent faculty, 1 staff and 2 LTAs) voted on the following email motion: *"We, the members of the School of Land Use and Environmental Change recommend that SLUEC be restructured effective before September 1, 2023, into two separate departments, following the details of the Memorandum of 21 March 2023 from Lucy Lee, Dean, Faculty of Science."* The electronic voting allowed faculty who were away (on sabbatical or on other leaves) to participate in the voting process. The Science Admin Assistant, tabulated the votes after a one week voting period, resulting in 11 members voting yes, while 3 did not reply by the deadline of March 28 at 10am. The motion was then forwarded to the Faculty of Science Council meeting held March 31 to ratify SLUEC's decision, and the Science faculty unanimously (with one abstention) recommended forwarding the motion to APPC.

MOTION: *THAT APPC approves the formation of two new departments as noted below, arising from the restructuring and dissolution of the School of Land Use and Environmental Change.*

Background information:

The School of Land Use and Environmental Change (SLUEC) came into existence April 1, 2019 with the interim name of SAGE (School of Agriculture, Geography and the Environment). It was originally intended to be an amalgamation of the Department of Geography and the Environment (GATE) from the College of Arts, and the Department of Agriculture Technology (Ag Tech) from the Faculty of Applied Technical Studies (FATS), residing within the Faculty of Science. This was brought about by two main recommendations that resulted from a program review of GATE in 2018, as well as from an internal review of Ag Tech under a former FATS Dean, and several changes were suggested that perhaps justified the merger of the two units. However, Ag Tech chose not to join SLUEC, and following discussions and after major personnel changes, Ag Tech eventually moved to the Faculty of Science as its own department in May of 2022.

GATE thus transitioned into SLUEC without Ag Tech, and an external acting Director (former head of the Math and Stats Dept) was appointed from April to December of 2019 to assume leadership and work with the interim unit (SAGE) on its path to becoming SLUEC. (The name officially changed in October of 2019). A Selection Advisory Committee was struck to select the inaugural Director following a call for applications and the selected candidate began in that role in January of 2020. Managing the unit with the outbreak of COVID-19, and working remotely for the first several months, delayed the implementation of some changes that had begun following the unit's program review. Nonetheless, the School moved ahead with a new Vision "Creating leaders for a resilient future" and Mission that "creates collaborative opportunities for students and community organizations to explore geography of natural and human environments towards a resilient future". These harmonize well with UFV's general Vision and Mission statements for "...community connection, reconciliation and prosperity..." (UFV Vision 2019), and "Engaging learners, transforming lives, building community" (UFV Mission 2019).

Memorandum

SLUEC grew in terms of student enrolments in courses from a rough average of 1700 each year between the periods of 2015-2019 as GATE, to over 2000 enrolments per year in 2019-20 and 2020-21 as SLUEC, although a drop was noted this past year to 1900 (See SLUEC Data book 2021-22) and a further drop to 1700 has been noted for 2022-23. Furthermore, the pandemic years had been extremely difficult for the Director who resigned in the fall of 2022 from the admin position, so the school has been running with two interim co-directors consisting of the Associate Dean of Science and a member from within SLUEC for the past 6 months.

Rationale for Restructuring:

A brand-new program (Bachelor of Regional and Community Planning, or BRCP) was recently approved by the Ministry, and we are targeting for Sept 2023 to begin offering the degree. The regulations from the Professional Planner's body required for accreditation includes having "Planning" in its academic unit title, a minimum number of registered professional planners or RPPs (3 for a unit of 7 members or less), and an RPP as unit head. See <https://psb-planningcanada.ca/university-accreditation/>

Furthermore, the Bachelor of Environmental Studies (BES and BES-NS) programs grew in popularity (from an initial cohort of 23 students in 2019/20 to 72 students combined in 2021/22). The GIS Certificate is in need of review, and several GIS microcredentials are being proposed. There is also the potential for an accredited Professional Geoscientist (PGeo) stream in the BSc. The latter may be especially appealing for students who seek applied careers. It is noteworthy that the incoming Dean of Science is a registered PGeo in both BC and AB and could facilitate this process.

The faculty members involved agreed that restructuring of SLUEC is necessary not only to move forward with the launch and accreditation of the newly approved BRCP program, but also to grow Environmental Studies and reinvigorate Physical Geography and GIS, especially with the possibility of getting accreditation for the Professional Geoscientist designation.

Thus, creating two separate Departments with more defined subject areas from SLUEC is being envisioned. It was also challenging for one person to lead a growing and diverse academic unit, and having separate department Heads, each with more affinity to the new departments would be less costly than having a Director and gain better cohesiveness among members of the two separate units. Additionally, the chair of any accredited Planning Program must have an RPP designation. In the case of a department with less than 8 faculty members, there would be 3 RPPs needed, whereas for units bigger than 8 faculty, 4 or more RPP's would be needed.

Restructuring Process and Proposal of SLUEC into two departments within the Faculty of Science:

Consultations for the dissolution and restructuring process for SLUEC took place beginning October 14, 2022 at the SLUEC monthly meeting (attended by myself in person), followed by email to all unit members on October 17, 2022. Discussions were held at various SLUEC meetings chaired by the Associate Dean of Science in November and December, and I attended another Unit meeting in person on January 13, 2023. An email follow-up to all SLUEC members on Jan 23, 2023 was also sent for those who were on sabbatical or on personal leaves, and a detailed memo was circulated to unit members on March 21, 2023, with voting motion made by email as noted above.

Memorandum

As the current Dean in charge, and after consultation with the Associate Dean along with the acting co-Director, and with consultation with an appointed Special Advisor to the Provost, and with agreement from the faculty and staff, we **propose that SLUEC be reconfigured into two regular Departments within the Faculty of Science.** One, possibly named the Department of GeoSciences (DOGS), will comprise Geoscientists (Physical Geography and GIS) and will have 6 of the current SLUEC faculty. The other, perhaps named the Planning and Human Geography & Environmental Studies Department (PAHGES), will comprise Planner, Human Geographers, and Environmental studies faculty (5 current faculty + 1 in offer stage). The department names and other details related to the division are being worked out and will be reported separately, but this reorganization appears to be necessary to reframe and move forward the interests, goals and aspirations of the various faculty members within SLUEC and attract and retain students in these fields. This reconfiguration will facilitate the division of labour for growth and adapting to curriculum changes. PAHGES will have 3 RPPs as required by the Planners Professional Body, once we finalize the new hire (offer made awaiting response) and one member who is completing the RPP requirements and is a Candidate Member in the Planning Institute of British Columbia (PIBC) and the Canadian Institute of Planners (CIP). Another faculty member (who spearheaded the program and is an RPP) has been consulted and agreed to be the inaugural Department Head for PAHGES or equivalent, to launch the BRCP program.

Budget implications and logistics:

The budget for the 2023/24 year is in place and all resources are supported within the Faculty of Science budget for this to occur on September 1, 2023. Additionally, savings from Director's salary as well as savings from unfilled positions should place the start of this new program in great shape for its inaugural year. The program was approved with the current resources and the addition of the new planner was approved a year ago, thus all resources are in place. The dissolution of the School (savings from Director salary) will allow PAHGES to receive 4 releases, of which 2 will go to the department head (planning coordinator), one to the Human Geography coordinator and one to the Environmental Studies coordinator. The other department, DOGS or equivalent, will receive 3 releases, 2 to the department head and one to the GIS coordinator. The BRCP program was approved with the current resource allocations, and with the expected increase in student enrolments, the 2 departments could grow to cover any future needs.

Some overlap may still be needed between the departments, and this is necessary for the benefit of the students. We strongly believe that the creation of the two distinct units will lead to streamlining and better support for students, as well as growth for both areas. Physically, the units will remain in the current area of Building A 4th floor and can accommodate the planned growth (2 or 3 additional faculty) and still share the current administrative support provided by the School Coordinator. This Coordinator has been consulted in the restructuring plan throughout the process, and she is confident and comfortable to continue providing support to the faculty even if this may require attending two department meetings. Her workload will be split at 60%:40% capacity (three days each week with PAHGES, two days with DOGS).

Student representatives from SLUECSA have also been informed of the possible separation of the unit and are discussing how the student association would reorganize along the interests of the student's study areas.

The Logistics of the separation are close to being finalized, including distribution of courses taught by the departments, instrumentation (some will be shared), and student awards.

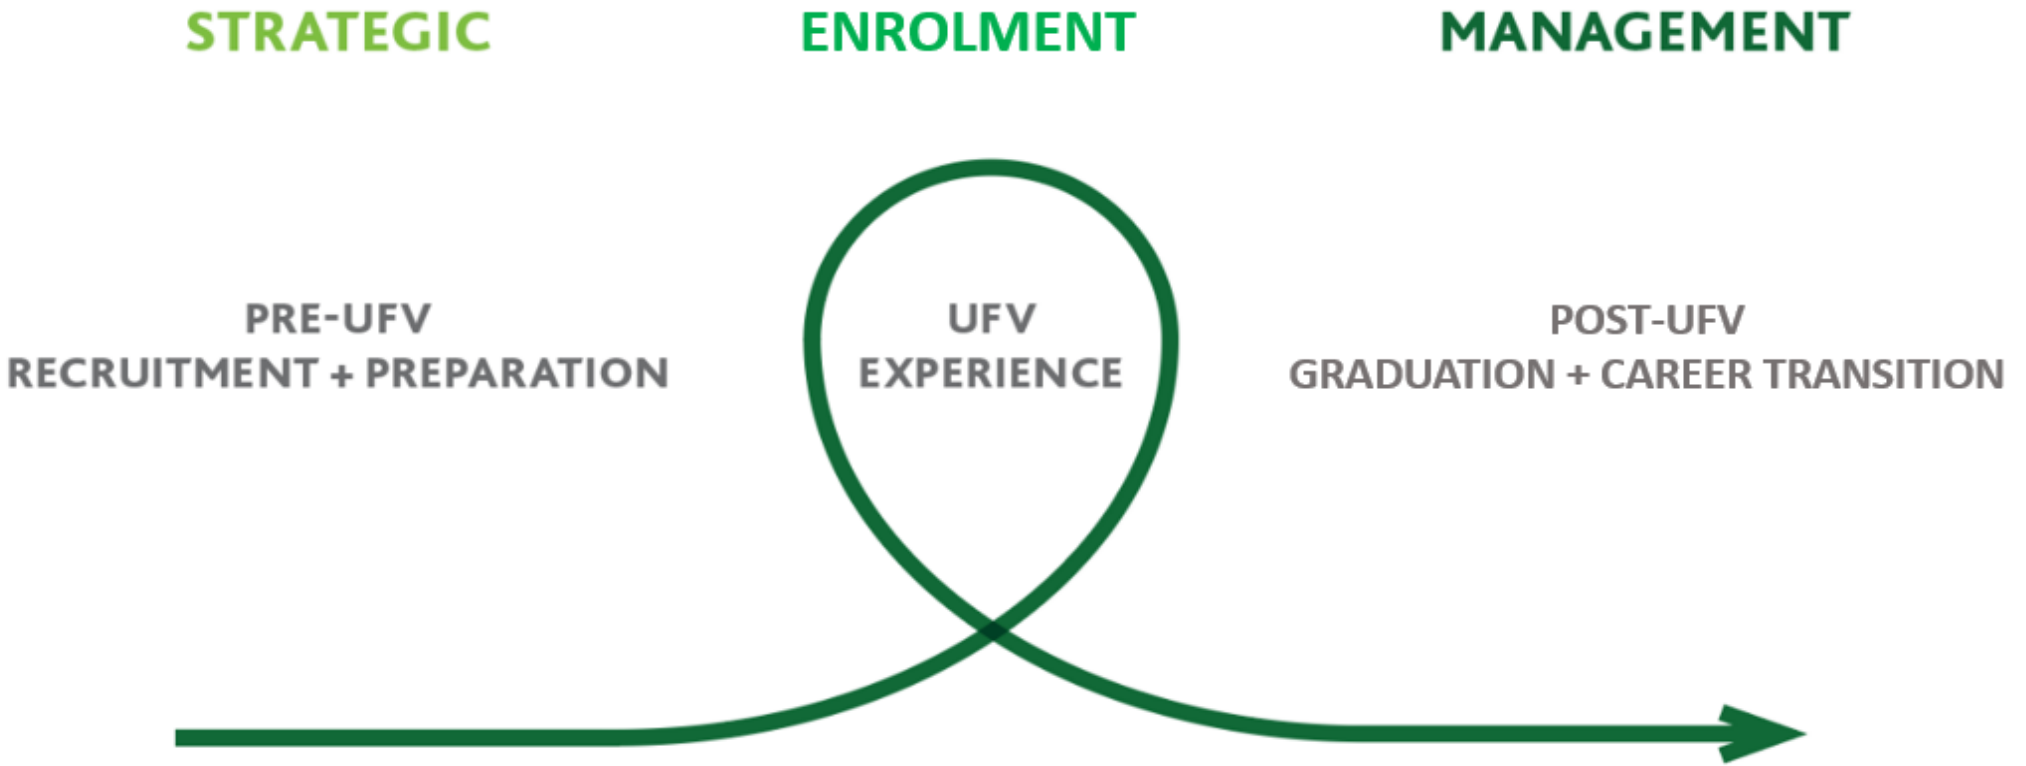

Strategic Enrolment Management Operational Priorities Plan

2023/24

Background

- According to the BC University Act, UFV is a Special Purpose Teaching University with an access mandate to serve those living in the Fraser Valley
- The population data for the Fraser Valley suggests that UFV should be preparing for an increase in domestic enrolments of approximately 20% over the next 10 years. A greater percentage of these students are anticipated to be younger, enroll directly from high school, be Indigenous, and have greater ethnic diversity than UFV's current student population.
- The Strategic Enrolment Management Plan was approved by the Board of Governors in October, 2022 following extensive consultation with Senate and members of the UFV community
- A number of institutional goals and actions were identified over the duration of the 7 year plan
- The guiding strategy for the SEM plan is: "Engage learners, transform lives, and build communities by positioning UFV to meet the growing educational needs and demands within the Fraser Valley; balanced with, opportunities to welcome international students from around the world."

The planning process encompasses the three stages of a student's educational journey (recruitment and preparation, UFV student experience, and graduation and career transition) and creates a Framework to guide future SEM planning.

SEM Framework
Strategy & Goals

Engage learners, transform lives, and build communities by positioning UFV to meet the growing educational needs and demands within the Fraser Valley; balanced with, opportunities to welcome international students from around the world.

Recruitment and Preparation	Student Experience	Graduation and Career Transition
Increase the number of Indigenous students attending UFV by making UFV a destination of choice for Indigenous students.	Provide a welcoming and supportive environment for all Indigenous peoples	Increase graduation rates.
Strengthen partnership with local School Districts to support successful transition and pathways into UFV.	All new program proposals will be strongly aligned to regional needs and can demonstrate financial sustainability in the absence of additional government funding.	Increase the % of students who graduate with a degree within 7 years and diploma within 4 years.
Increase conversion rates of first choice applications to UFV.	Increase the diversity of academic programs that are attractive to international students.	Map learning outcomes with future ready skills that prepare graduates for a successful transition into a global workforce.
Increase diversity amongst international students.	Increase the number of faculty who utilize Teaching and Learning supports.	Increase the number of programs that can ladder into additional educational opportunities.
Enhance university brand identity and image throughout the Fraser Valley.	Reduce the number of students on waitlists.	Increase the number of bachelor's degree recipients amongst students from the Fraser Valley.
Increase UFV's return-on-investments for scholarships to ensure they are competitive and foster attraction and retention.	Ensure flexible, well documented, credential completion pathways for students.	Support successful transition of alumni to employment or post-graduate studies.
Increase access and pathways points of admission that purposefully lead into UFV credential programs.	Increase student retention rates by 5% – particularly from Year 1 to Year 2	Facilitate attainment of future ready skills and competencies for graduates.
Identify and remove non-academic barriers that may prevent acceptance of offers of admission.	Explore the requirements to develop a student-centered timetable.	
Increase awareness amongst Sr. Administrators and faculty of enrolment targets and patterns.	Balance space utilization rates across UFV's multiple campuses.	
	Enhance student experience and strive to be a Student Ready University.	

Prioritization of Goals and Actions

Board & Senate Retreat – Top 5 Goals

Recruitment and Preparation	Student Experience	Graduation & Career Transition
Increase the number of Indigenous students attending UFV by making UFV a destination of choice for Indigenous students	Provide a welcoming and supportive environment for all Indigenous peoples	Map learning outcomes with future ready skills that prepare graduates for a successful transition into a global workforce.
Identify and remove non-academic barriers that may prevent acceptance of offers of admission	Enhance student experience and strive to be a Student Ready University.	Facilitate attainment of future ready skills and competencies for graduates
Strengthen partnership with local School Districts to support successful transition and pathways into UFV	Increase student retention rates by 5% – particularly from Year 1 to Year 2	Increase graduation rates.
Enhance university brand identity and image throughout the Fraser Valley.	Ensure flexible, well documented, credential completion pathways for students	Support successful transition of alumni to employment or post-graduate studies
Increase access and pathways points of admission that purposefully lead into UFV credential programs	Reduce the number of students on waitlists.	Increase the % of students who graduate with a degree within 7 years and diploma within 4 years.

SEM Planning Tool

Summary of Results

February 15, 2023

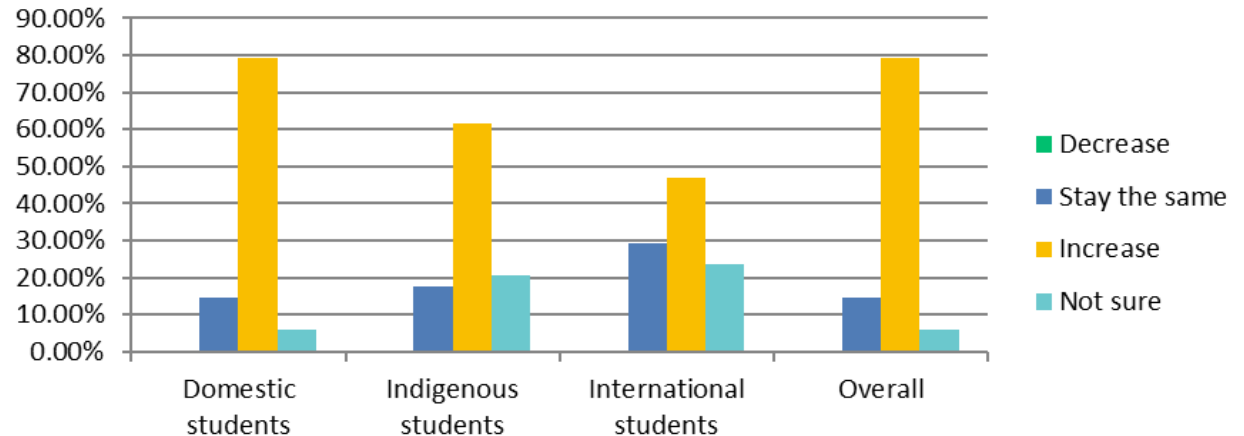

SEM Planning Tool

- The SEM Planning Tool was created to assist academic and administrative department heads/directors with selecting and prioritizing the institutional action items outlined in the SEM Plan that will make the greatest impact on their area and programs.
- Department heads were requested to think of the Tool as a self-directed workshop on the direction of their area over the next several years, particularly as it relates to the SEM Plan and its action items. They were instructed to select the action items that their area wishes to focus on.
- The SEM Planning Tool was sent to 58 academic and administrative department leaders on November 18th, 2022 and all 58 responded for a response rate of 100%. Thirty-four (59%) of the respondents indicated that they lead an academic department and 24 indicated they lead an administrative department/area. Just over one-third of respondents are department heads, one-third are directors, and the remaining are either AVPs or other. The “Other” category included a manager, convenor, acting co-director, coordinator, executive director, and university librarian.

Enrolment Plans

- The academic areas (n=34) were asked about what enrolment trends they anticipate over the next seven years (by 2030/31).
- The strong majority (79%) anticipate that enrolment in their area will increase overall, with more indicating growth in our domestic student population.

Over the next seven years (by 2030/31), what enrolment trends do you anticipate for the following student groups for your department/area?

Results of SEM Planning Tool: Top 5 Actions

Recruitment and Preparation	Student Experience	Graduation & Career Transition
Build relationships with Indigenous communities in order to be responsive and responsible to the goals of Indigenous peoples.	Continue to prioritize the goals of the EDI Action Plan to foster a welcoming community for all students	Ensure required courses are offered and delivered when a student needs them.
Develop clear value proposition on Why UFV for marketing material.	Increase the number of faculty who support and are prepared to support and promote the work of Indigenization.	Utilize early alerts and predictive analytics, inclusive of EDI and Indigenization, to support students most at risk of leaving UFV.
Initiate an annual Open House/Discovery Day for prospective students and their supporters.	Explore opportunities to enhance the student experience on campus.	Create and provide support for more opportunities for students to engage in real world issues and produce real world change while practicing their learning
Host an annual education summit with leaders from the Fraser Valley K-12 sector that focuses on alignment with UFV.	Identify and resolve challenges experienced by underserved and/or historically marginalized students.	Review curriculum and degree requirements to increase flexibility for completion.
Increase capacity to take in students in high-demand programs.	Improve existing and develop new responsive, relevant, and proactive learner supports for key stages of the learning journey for all students.	Develop a robust full summer timetable.

SEM Areas of Focus for 23/24 based upon Institutional Feedback and Priorities from SEM Planning Tool

Supporting the SEM Plan

Institutional Support

- Central administration will ensure that identified institutional actions are resourced to support impacted areas

Divisional Support

- Division leads (e.g., Deans, Managers, Directors, Heads, etc) will work with administrative units that report into them to support and resource specific SEM priorities for their areas
- Divisions can submit funding proposals to SEM Council
- Deans will be responsible for managing and meeting enrolment targets

Admissions

Actions	Institutional Responsibility
Review admission requirements and remove possible barriers	VP Academic
Clearly communicated admission requirements	VP Academic
Promote admission opportunities for students not applying direct from High School	VP Academic
Increase transnational partnership articulation agreements	VP Academic
Identify ways to expedite admission decisions to applicants	VP Academic
Explore ways to maximize applicant pool (admissions: applicant ratios)	VP Academic
Adopt competitive entry for areas with high demand	VP Academic
Provide Programs with templated resources to support marketing	VP Community Engagement
Provide conditional offers into credential programs rather than Qualifying studies whenever possible	VP Academic

Retention

Action	Institutional Responsibility
Support curriculum review to remove barriers to program completion	VP Academic
Reduce waitlists for bottleneck/ required courses	VP Academic
Integrate data from MyGRADplan (Degree Works) into course planning for deans, departments, and schools to assist students in clearly understanding credential completion requirements.	VP Academic
Revise policies on course withdrawal and continuance, so that elements of student success are built in.	VP Students
Encourage the utilization of Open Educational Resources within courses to reduce financial barriers for students.	VP Academic
Identify first-year courses with low success rates and increase targeted support accordingly through SLG	VP Academic
Development of a Student Ready Framework	VP Students
Review scholarship strategy to ensure a balance between recruitment and retention scholarships	VP Students
Identify an early intervention strategy based on predictive analytics	VP Students
Partnership with SUS & Campus Recreation on enhancing on-campus student experience	VP Students
Prepare students for future ready skills	VP Students & VP Academic

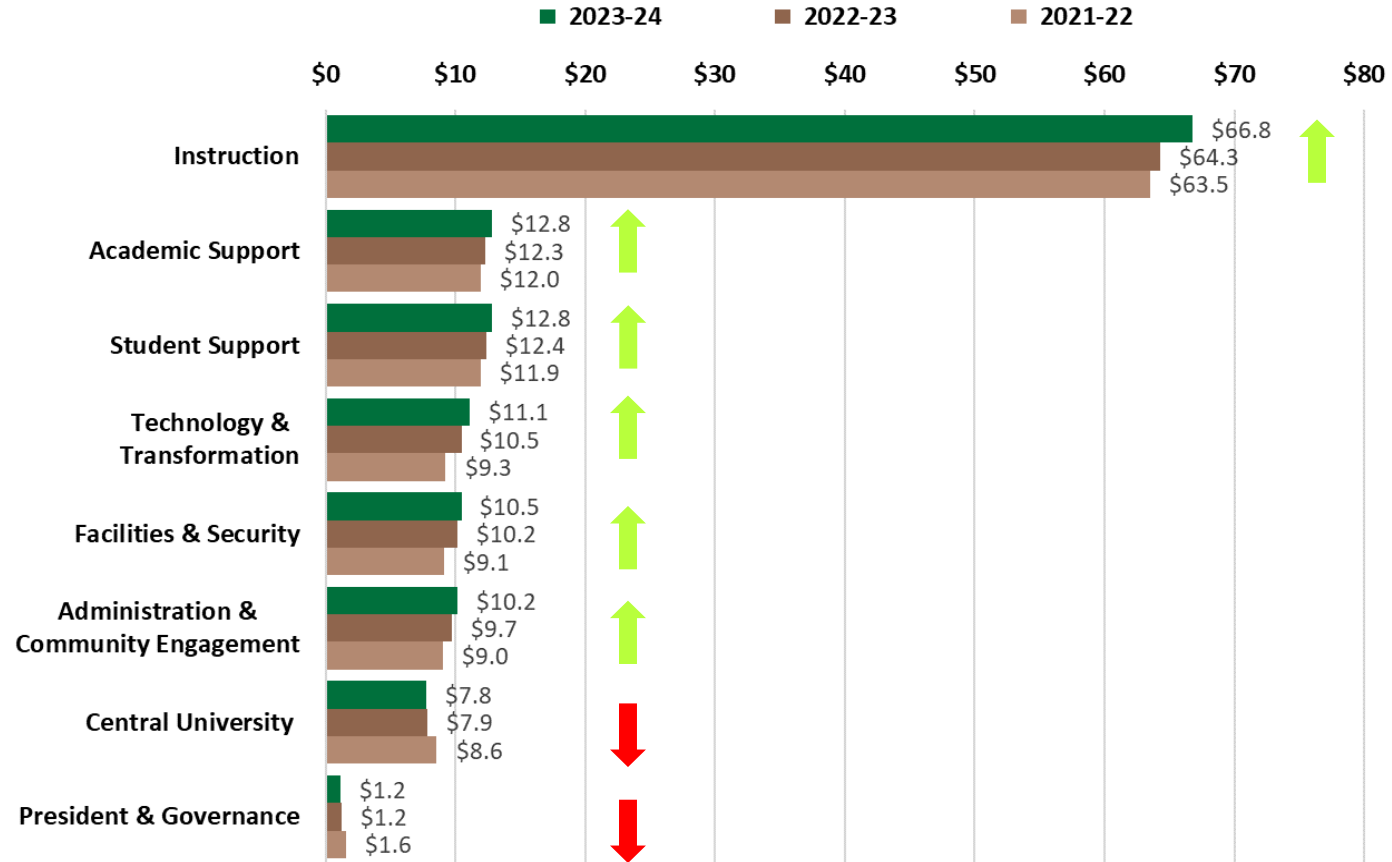

Indigenization and EDI

Action	Institutional Responsibility
Utilize Changemaker campus principles to support Indigenization and EDI strategies/ action plan	Acting President
Increase dedicated seats for Indigenous students	VP Academic
Align ILO's with Indigenous principles	VP Academic
Continue to action items from the EDI Action Plan related to enhancing the student experience	VP Students
Identify and resolve challenges experienced by underserved and/or historically marginalized students.	VP Students
Explore expansion of scholarships for students from equity deserving groups	VP CE
Continue to expand upon curriculum support for Indigenization across courses	VP Academic
Increased diversity amongst international student population	VP Academic

Additional Institutional Actions

Action	Institutional Responsibility
7 year enrolment targets	VP Academic
SEM Scorecard	Acting President
Increased access and awareness of enrolment dashboards	Acting President
Continue with Open House	VP Community Engagement
Development of Updated ILOs	VP Academic
Additional Counsellor to support student mental health	VP Students

MEMO

To: APPC for the May 17th meeting
From: Vladimir Dvoracek, IRP
Date: 2023-05-02
Re: SEM Plan: 2030/31 enrolment targets

Academic Planning and Priorities Committee

1. The SEM Plan and Enrolment Targets

UFV's SEM Plan 2023-2030 calls for the creation of a 7-year enrolment plan. We take 2022/23 as the base year, the 7-year targets start in 2024/25—as this is the first year that they will inform the budget, and the targets conclude in fiscal 2030/31. IRP has created an Enrolment Planner spreadsheet to assist with setting targets, calculating new to UFV and returning students from current numbers through to the end of the SEM Plan, and updating targets as we move through time.

The 2030/31 institutional target for domestic FTEs was set by referring to the forecasted increase from 2022 to 2030 in the Fraser Valley College Region's (FVCR) population, weighted by the age distribution of the UFV student population. This forecasted increase is 17%, which when applied to the 2022/23 FTEs of 7,046, yields a rounded value of 8,250 domestic FTEs as the 2030/31 institutional target.

Initially, it may seem easy to achieve FTE growth that matches demographic growth. But, given the recent history of enrolment at the UFV, it is an ambitious goal as enrolments have underperformed the population growth in the FVCR. Since 2010, UFV FTEs have declined slightly while the FVCR weighted population has increased by some 8%. Matching UFV domestic FTE growth with local demographic growth for the next 7 years would be a significant achievement for UFV, especially if we do not receive additional Ministry funding in support.

The SEM Plan calls for the international enrolment goal to be approximately 25% of UFV's overall student population. Applying 25% to 8,250 yields the international FTE target of 2,750 FTEs. International students typically take more courses per student than domestic students so, 25% in FTEs will likely result in around 21% in headcount. In 2022/23, UFV produced 1,449 international FTEs in Canada so the 2030/31 target entails an increase of some 90%. Relative to our high mark for international FTEs achieved in 2019/20 of 2,068, the target represents a 33% increase.

Setting 2030/31 targets benefits the university in several ways. It assists with the allocation of resources by identifying areas and programs we expect to grow faster, the same, or lesser relative to the institutional average. The targets also provide direction for our efforts in recruiting and admissions.

2. The process for setting SEM 2030/31 targets

UFV has well over a hundred programs, and it is challenging to set appropriate targets for all these programs, by fee type. The majority of our students are in the most popular programs: of the 100 plus programs, only 16 have over 100 domestic students, and only 10 have over 50 international students. To assist in planning, we set specific targets for select high priority programs, cohort-based programs, and for programs where the faculty had a strong sense of future direction. For the remaining programs, we calculated growth rates as the residual that would result in meeting the institutional targets. The programs that had their targets set using the residual growth rate were reviewed to ensure that the targets were suitable. In this process, all current programs were reviewed, and targets were established by program and fee type.

The targets are by program headcount—this is the natural primal since it is programs that students enrol in, progress through, and graduate from. The Enrolment Planner uses historical rates to convert these program headcounts, by fee type, into FTEs by department. This provides a vital bridge between enrolment planning and budgeting since the latter is done by FTEs (registrations), and by department.

3. Informing the budget process and adjustments

Since 2017, IRP has produced an annual Enrolment Plan to inform the budgeting process. The Enrolment Plan provides an opportunity for the academic side of the house to provide input early in the budget process. The 2030/31 targets, along with the associated path to achieve these targets, will provide the starting point for Enrolment Plan discussions each year. To illustrate the timeline, our last year of actuals is 2022/23, the 2023/24 budget was finalized in winter 2023, and we are currently beginning discussions on the 2024/25 budget. As each year passes, we will update the Enrolment Planner with another year of actuals and remove the corresponding from the planned path. We will also review 2030/31 targets with faculties and senior administration to see if any changes are needed.

4. Words at the end

Creating a 7-year plan is ambitious. Change will happen over this time and there are many unknowns: first year students that will come to UFV in 2030 are currently in elementary school, UFV will certainly offer new programs and possibly discontinue others, and the landscape for international education may well differ from what it is today. By setting 2030/31 targets we are setting an intention on where we are trying to go, and how we intend to get there.
